Alcohol and Other Drugs Treatment

What does the service do?

The AOD Treatment service helps clients whose lives are affected by alcohol and other drugs use.

The service aims to provide clients with hope and help to recover and/or minimise harmful substance use and achieve their life goals.

We also provide a care and recovery coordinator for people who want or need additional support to improve their wellbeing.

How can a counsellor help?

Our counsellors can help you reduce the impact of alcohol or other drugs in your life. We can refer you to other support services if you need them.

We can also help the people close to you such as partners and family members. Counselling and support are provided to people individually or as a family.

We have a counselling service for people experiencing mental health and substance use issues and their family members or affected loved ones.

Who can use this service?

People over the age of 16 years old who live, work or study in Brimbank, Wyndham and Hobsons Bay.

Can I have an interpreter?

Yes, interpreters are free. Please let us know when booking an appointment.
